Motorized Rockwell Hardness Tester 650MA

- Easy to handle
- Accuracy conform EN-ISO 6508 und ASTM E-18, GB/T230.2
- Large working space accommodates larger specimen
- Rugged construction, excellent stiffness
- Motorized testing procedure
- Electronic control of load duration

Technical Specification

Hardness scales	HRA, HRB, HRC
Test force	60kg, 100kg, 150kg (10kg Vorkraft)
Test force selection	Adjusting knob
Hardness resolution	1 Rockwell
Dwell time	3-99s
Test cycle	Motorized (preliminary test force is applied manually)
Accuracy	nach EN-ISO 6508 und ASTM E-18, GB/T230.2
Data output	None
Working space	170mm x 165mm (Depth from the centerline)
Dimension	227mm x 516mm x 715mm
Weight	85kg
Power supply	110/220V AC, 60~50Hz

Standard delivery

- Adjustable feet
- Diamond indenter
- Ball indenter 1/16"
- 10 pcs. 1/16" Spare ball
- Flat anvil Ø60mm
- Flat anvil Ø150mm
- V-anvil Ø40mm
- Pedestal spot anvil
- Dustproof cover
- Power cable
- Manual
- Case for accessories
- Spare fuses

Optional accessory

- Certified test blocks
- Certified indenters
